Adding ad-hoc mentors

Assigning

Scope

Tech & AI · Mentor Matching Workbook

ised

Each shows the team's stated needs and the top 3 mentor matches, ranked by fit (expertise ↔ needs + sector). Details (status, capacity, sector, base) auto-fill from the Mentors tab.

The full searchable directory of all mentor sign-ups. Use the filter arrows on the header row to search by expertise (Y = yes), sector, capacity, base, etc.

Add anyone new at the bottom of the Mentors tab (yellow rows). Once added, type their name into a venture tab's "Add other / ad-hoc" rows and their details auto-fill.

On each venture tab, use the yellow "Assign?" column to mark your pick (Assigned / Backup / No) and jot notes.

14 founder responses across 11 teams; White Hat from assessment (no survey). 21 mentors. Pool for matches excludes Will (host) and Samuli (declined). "Maybe" = not yet confirmed (Hanna, Anja).

Mentor Directory — searchable

Filter with the header arrows (row 4). Expertise columns: Y = yes. Add ad-hoc mentors in the yellow rows a

[illegible]

at the bottom — they become searchable here and usable on the venture tabs.
